Alberto Godio
Master of Science in Mining Engineering
PhD
Associate Professor
Politecnico di Torino

Alberto Godio holds a degree in Mining Engineering (1988) and a PhD in Georesource Engineering at Politecnico di Torino (1993). He is currently a professor at Politecnico di Torino; he teaches the courses of Applied Geophysics and Design for Environmental Engineering.

The main research interests focus on the application of electrical and electromagnetic methods for prospection and monitoring in environmental engineering, hydrogeology and geology and in glaciology. He deals with numerical methods applied to the processing of geophysical data.

He has been responsible of research project in the frame of FP6 and FP7 EU funded programs, responsible of a Life Project, responsible of a bilateral project Italy-India (2018-2020) and several national programs funded by Italian Government (PRIN, FIRB) and Regional agencies. He has been consultant for Industrial partners such as Italcementi, Teksid, SanPellegrino

He has been the delegate of the Rector for student mobility (2015-2018); he is the Rector's Advisor for student mobility and Erasmus+ program.

He is author and co-author of 70 papers on peer review journals and more than 120 contributions at national and international conferences.
